DUMITRU ROIBU

EXECUTIVE PRESIDENT OF YMCA MOLDOVA

For the entire team of staff and volunteers of YMCA Moldova, the year 2022 was full of challenges, but also of good results.

We have been actively involved in the management of the Ukrainian refugee crisis, an unprecedented phenomenon. We organized transport, logistic support, the provision of humanitarian aid in the form of food and hygiene products, we provided professional psychological and legal assistance as well as employment support in the field of work. Likewise, we continued to pay special attention to refugee children, whom we involved in various activities with Moldovan children, thus contributing to their social integration.

YMCA Moldova grew a lot in 2022, essentially diversifying the range of services and activities it carries out, we increased contacts with external partners, but also strengthened our relations with YMCA Europe, World YMCA and other YMCA movements in European countries. Likewise, we have established new partnership relations with organizations in Europe and the United States of America.

In 2022 we launched "Digital Educational Centers in the Republic of Moldova", a unique project for our country, which is also the largest project ever implemented by an NGO in the Republic of Moldova. Within this project, with a total value of over 5 million 404 thousand euros, YMCA Moldova initiated the provision of over 320 educational institutions, NGOs, youth centers, refugee centers and media institutions with new laptops, to reduce digital inequality among young people.

At the same time, during this year we managed to establish partnership and collaboration relations with over 60 public institutions, local public administrations of level 1 and 2, and NGOs from the Republic of Moldova, and in November 2022, in the presence of the Secretary General of YMCA Europe, Juan Simones Iglesias, YMCA Moldova signed a Memorandum of Cooperation with Chisinau City Hall.

Our organization continues to pay more attention to children and their development opportunities, thus, we have concluded an agreement with the General Directorate for the Protection of Children's Rights of the Municipality of Chisinau, under which we have provided 42 specialized institutions subordinate to the Directorate with new laptops for children to increase their digital skills.

Thus, we are very happy and confident in all the initiatives and projects launched in 2022, because we were able to increase the staff team, and because we were able to offer more possibilities of involvement to our volunteers. Thus, we essentially increased the number of direct beneficiaries to over 22 thousand people.

We would like to express our sincere gratitude and thanks to the entire YMCA global team, all local and international partners for their trust, collaboration and essential contribution in the process of achieving our mission.
